Minnie E. Wattingly House

HABS No. PA-5725

HABS,
PA,
11-JOTO,
125-

Location: 233 Tioga Street, Westmont, Johnstown, Cambria County, Pa.

Description: Large, two-and-a-half-story, two-bay single-family residence covered with wood shingles and resting on a concrete block foundation. The hipped-roof has a large shed-roofed dormer with three six-over-six-light sash windows. The shed-roofed front porch is supported by square columns covered in wood shingles and an enclosed wood-shingle balustrade. Wooden lattice-work under the porch area. The east side of the house has a two-story projecting pedimented gable. A one-story, shed-roofed enclosed porch is to the rear of the house.

History: This house was built in 1916. A. G. Raab, a draughtsman, purchased two lots here from the Cambria Iron Company on October 18, 1903, for \$2,000. He never built a house on either lot. In 1916, Minnie E. Wattingly bought one lot from Raab for \$600, and built the house the following year.

Project Information: This report was part of a larger project to document the city of Johnstown, Pennsylvania. The project was undertaken by the Historic American Buildings Survey/Historic American Engineering Record (HABS/HAER), Robert Kapsch, chief, at the request of America's Industrial Heritage Project (AIHP). An overview of history of the city (HABS No. PA-5669) and an overview of the neighborhood of Westmont (HABS No. PA-5671) provide context for these buildings as well as a comprehensive list of sources. See also additional HABS reports on buildings in the downtown and other neighborhoods.

This report was prepared by Cheryl Powell in August 1988 under the direction of Alison K. Hoagland, HABS historian, and Kim E. Wallace, the supervisory historian of the project. Powell's and other project historians' work was published as The Character of a Steel Mill City: Four Historic Neighborhoods of Johnstown, Pennsylvania (Washington, D.C.: HABS/HAER, National Park Service, 1989), edited by Kim E. Wallace. Illustrations in the publication include large format photographs taken by HAER photographer Jet Lowe and 35 mm photographs taken by the project historians.
