A VICTORY FOR SPORTSMANSHIP

The February "Yodler" discussed sportsman-ship in many phases, but failed to laud a certain notable display of that quality. Our basketball team had gone to Maryland and had lost a very close game to Allegany H. S. Because they had led throughout the entire game but lost in an extra period, that defeat was a hard one to admit. But yet, the boys came home and stated that they were treated like princes. Later in the season, Allegany defeated us on our gym floor. Throughout the game and the dance that fol-lowed, a fine spirit prevailed. Many regard this as the finest example of wholesome rivalry, school spirit, and sportsmanship displayed on our floor this season. Our team had lost the contest, but both schools had achieved a nobler triumph.

SHOULD WE HAVE A MATHEMATICS CLUB?

Many high schools include among their or-ganizations a mathematics club. In most cases these clubs have been very successful. Should our high school have such a club?

To answer that question, let us consider sev-eral of the functions of such a club. The first and inevitable function would be to hold meet-ings of the members. The members themselves would determine the procedure at the meetings. Whatever business activities the club had would be taken up. Then the various problems which were being worked would be considered. The meeting would end with anything else of a mathematical nature which would provide a good time. The club itself would decide what other activities it wished. They might sponsor a con-test to determine who could submit the most clever or intricate original problem, or a contest to determine who could solve the most prob-lems in a list compiled by the teacher.

The purposes and advantages of such a club are numerous. First it would greatly increase interest in mathematics. It is a subject that is hard for many pupils merely because they don't like it; and they don't like it because in classwork they usually get the uninteresting side of it. For such pupils and for those whose interest lags, such a club is very helpful. By bringing out the pleasanter side of the subject, a mathematics club provides enjoyable as well as valuable di-verseion. It would undoubtedly improve one's ability to solve problems and encourage speed and accuracy. Rivalry between members holds the standards of such a club high.

However, is there a demand for such an or-ganization? Yes. All who see the benefits of it are surely in favor of it. In fact, the possibilities of such a club make it almost a necessity in our school. If Westmont-Upper Yoder High School wants to be among the front ranks, it must be up-to-the-minute in curricular and extra-curricu-lar work. A mathematics club is not exactly an extra-curricular activity, it is an allied-curricular activity.

If you can see the benefits for yourself in forming a mathematics club, talk to Mr. Wolf about it. There are others who will coöperate in forming the club.

LITERARY

DEBATES

For the past two years Westmont-U. Y. has taken part in the Forensic League debates and last year won the county championship. This year we were represented by the following people: Affirmative—Frank Bracken, Eleanor Fienberg, and Naomi Berney, alternate; Negative—Sara Dodson, Louise Geist, and Jack Zubrod, alternate. These people were selected from the Senior class after a series of class debates. They were selected on a basis of their class work and their possibilities of future development.

This year the subject for debate was "Resolved, That old age pension legislation be enacted in the Commonwealth of Pennsylvania." The first debate was held on March 17 with Ferndale, both affirmative teams winning, Westmont with a score of 3-0 and Ferndale by a 2-1 decision. The next day both of Westmont's teams won from Adams Township by a 2-1 score. On Thursday, the 19th, Franklin beat our negative team 3-0, while our affirmative team won a 2-1 victory. Westmont and Ferndale were tied on a "wins and loses" basis, that is each had won four victories. However, in the course of the debates ten judges had voted for us, while only nine had voted for Ferndale. Also our affirmative had never lost, while both the affirmative and negative teams of Ferndale suffered 3-0 defeats at one time or other.

We were forced to engage in a second debate with Ferndale at Johnstown High School on Tuesday, March 24, judges being selected by the Debating Committee. Westmont won each debate by a 3-0 decision of the judges. This made us the champions of southern Cambria County. The county championship debates will be held at Ebensburg Saturday, March 28.

The judging was done on the following points:

- (1) Accuracy of facts
- (2) Adequacy in presentation of facts
- (3) Logical reasoning
- (4) Support of strong issues
- (5) Answers to opponents in rebuttal
- (6) Resourcefulness of speakers
- (7) Speaker's ability to think for himself
- (8) Naturalness and ease of speakers
- (9) Use of English
- (10) Persuasiveness.

"What delights us in the spring is more a sensation than an appearance, more a hope than any visible reality."

"The desire of knowledge, like the thirst of riches, increases ever with the acquisition of it."

RECENT ASSEMBLIES

We have lately been favored with some very entertaining assembly programs. On Friday, March 6, we were favored with a play, "Diogenes Looks for a Secretary," presented by members of Miss Landis's Stenography class. It gave a humorous view of the situation of the modern business man searching for a private secretary.

On Friday morning, March 13, the W.-U. Y. H. S. debating teams held a practice debate, which gave some of us who were somewhat hazy in our ideas of a debate, a chance to see how it is really done. In the afternoon we heard a concert of the musical entries in the Forensic League. The orchestra played its selections, and the girls' choral club and mixed glee club presented their selections. We also heard a violin solo by Julia Dunn and a trombone solo by Clyde St. Clair.

THE BOOKSHELF

On a lonely evening, when all the family have gone out, pick up a book, and settle yourself in a comfortable arm chair. If you feel in the mood for a weird, hair-raising mystery story, read the book "Tales of Mystery and Imagination" by Edgar Allen Poe. His stories are usually on supernatural beings, and this makes them especially stirring.

Perhaps you would rather read a book telling about wars between different clans. Then read "Scottish Chiefs" by Jane Porter. There is constant warfare in this book, and much blood shed. Girls would probably not like this.

If you feel blue, and need something to brighten things up, the best tonic would be "The Adventures of Tom Sawyer" by Mark Twain. This book tells about a boy and his chums telling the pranks they played, and the excuses they gave to get out of them. This is a book anyone could enjoy, whether old or young. Another book of this same type is "The Adventures of Huckleberry Finn" by Mark Twain.

A book on love and romance is "An Old-Fashioned Girl" by Louisa M. Alcott. Boys may enjoy this, but it is hardly possible. This book shows how a country girl felt out of place among her rich relatives.

SPRING

Spring is in the air!
The robin has made his return,
The bear has left his lair,
This is the season for which we yearn!

The little flowers burst forth in bloom,
Their colors many and gay,
The chirping birds take away the gloom
Of King Winter's gray.

The skies above are blue again,
The sun is back to shine,
And little Jenny Wren
Sings once more in glorious rhyme.

Henrietta Suto, '31.

INTERESTING CHEMISTRY PROJECTS

This year eighteen students have found chemistry an interesting study. Though it requires more work than the average major subject, Mr. Ott, our chemistry instructor, succeeds in making it very enjoyable.

Recently he brought some liquid air to class. The temperature of liquid air is about 200 degrees below zero centigrade. When some is exposed to the air of the warm room, nitrogen boils off, then oxygen, and finally argon. Boiling in this sense means changing from the liquid to the gaseous state. The liquid looks like thinned milk. When poured into a metal dish, a white gas arises and sinks toward the floor, disappearing before it touches the floor. When anything is allowed to lie in the liquid air it becomes very brittle. Mr. Ott demonstrated this with celery and a banana. Paper also becomes brittle but upon being exposed to air long enough, it returned to its natural state. It will burn one's finger to touch it.

Each Monday and Wednesday, a double period is devoted to laboratory work. Likely all of you have looked into the room at the left of the library, and wondered what went on in there. Look again some day if you have never noticed the arrangement of our well-equipped laboratory. A regular chemistry manual gives the directions for the experiments. Most experiments deal with the preparation and properties of various elements or compounds, or with chemical reactions. Many prove to be very enjoyable, though some send pungent odors through the whole school building.

At first, there were many nervous hands when acid was used. Fortunately, there have been no serious acid burns and no explosions in the laboratory this year. None of the pupils have failed to break some of the glass equipment, in spite of the fact that all breakage must be paid for.

The class work for the year is divided into about four units. For each unit, the answers to about thirty questions compiled by Mr. Ott are written and handed in. Class periods spent on this decrease the out-of-class work and permits each pupil to regulate his work each night. One period is devoted to a class discussion of the unit, and after an achievement test, work on a new unit commences.

The staff would be glad to have other classes contribute news of what they are doing.

OPPORTUNITY NIGHT

On March third, the 1931 opportunity evening was held in the high school auditorium. That night the pupils of the hilltop and Upper Yoder schools displayed their talent. The parents of the contestants and other local residents were present. The schools represented were Tioga Street Grade School, Stutzman, Benscreek, Elim, Berkley, and the high school.

HI-Y CLUB ACTIVE

One of the most active of the school organizations is the Hi-Y Club. Under the guidance of Mr. Tomb and the leadership of Don Adams, the president, the club has grown almost three-fold this year, fourteen new members having been inducted.

The interest this year has centered around the Monday evening suppers held in the cafeteria. Guests at these evening suppers include the School Board, Girl Reserve Cabinet, and Alumni Hi-Y members. At the March second meeting, the club entertained the foul-shooting teams of all the clubs in Greater Johnstown. Westmont-U. Y. was returned the winner in this contest as well as in a basketball game with the Blairsville Hi-Y, played as a preliminary. Earlier in the year Westmont-U. Y. finished second in the inter-club ping-pong tournament held at the Y. M. C. A.

Other activities of the more serious nature include serving with the Hi-Y Service Team at church gatherings, attending the Older Boys' Conference at McKeesport, and raising money to bring Hi-Y members of foreign countries to Toronto, Canada, for the World Conference.

Meanwhile the club is planning many interesting activities for the future.

YEAR BOOK STAFF ANNOUNCED

The Seniors are now hard at work preparing the 1931 year book. Those who secured positions on the staff are as follows:

PHOENICIAN STAFF

Editor-in-Chief Frank Bracken
Literary Editors.. Jack Zubrod, Sara E. Dodson,
Naomi Berney, Hazel Delozier
Organization Managers.....Loiuse Geist,
Henrietta Suto
Boys' Sports Editor Charles Kunkle
Girls' Sports Editor..... Elsie Minchau
Drama Editor Ellen Kuhn
Class Editors.. Margretta Keafer, Louise Dunkle
Joke Editors..... Eliza Waters, Malcolm Read,
George Whitten, Freda Keafer
Business Managers..... Eleanor Feinberg,
Don Adams
Typists Agnes Sobditch, Ethel Vickroy
Photographer Albert Bailey
Art Editor John Robson

MISS OSBORNE MISSED BY PUPILS

It seems that one of our teachers has had more than her share of misfortune and sorrow this winter. After recovering from a bone broken in an automobile accident, Miss Osborne recently returned to her teaching. But she had not taught very long until she was forced to be absent again. We have learned that her father recently died. Her Latin students extend their consolation to her, and hope that she will complete the school year without being absent again.

ALLEGANY GAME

On February 27, the hilltoppers met Allegany High School on the Westmont floor. Allegany seemed to be very successful during the first half, having a lead of seventeen points, but our boys came back in the second half with twenty-two points, making the final score forty-one to thirty-two, a victory for Allegany. These boys showed the best teamwork of any team that played here this season. Cessna tossed in seven field goals for the winners, while Marshall bagged seven for the losers.

After the game the Seniors sponsored a dance in honor of the Allegany boys. The entertainment was furnished by Louis Piper and his Pied Pipers. Everyone had a very enjoyable time, especially the boys from Allegany.

The Westmont boys were very courteous by leaving them cut in on any dance.

BEALL GAME

The Beall-Westmont-Upper Yoder game was played on our floor, March 6. It proved to be a repetition of the game played on the Beall floor several weeks previously, since we defeated them by the same number of points in both encounters. Hughes played a very good game for the losers, while Kunkle registered nine field goals for the winners. The score at the end of the game was thirty-eight to seventeen.

This victory ended a successful season for the Westmont-Upper Yoder basketball team. They played sixteen games, winning twelve. They lost once to Conemaugh, once to Ferndale, and twice to Allegany.

GIRLS DEFEAT FERNDAL

Friday, March 13, was certainly an exciting day for the girls' basketball team. They met their closest rival, Ferndale. Our girls were very happy to finish the game with a victory. The final score was 19-15.

The line-up was as follows:

Elsie MinchauF.....	Alwine
Charlotte Brickner	...F.....	Robson
Anna Marie		

SchneehageC.....	E. M. Clarren
Virginia EckelS. C.....	H. Ryan
Louise KylerG.....	R. M. Clarren
Agnes SobditchG.....	M. Livingston

This game brought to a close a very successful season for our girls. They have won nine out of ten games. One was lost by a three point margin to the Adams Township girls on the Adams Township floor.

WESTMONT-U. Y. WINS CAGE TOURNAMENT

Conemaugh Basketball League

When Conemaugh High School basketball team defeated our varsity at Conemaugh, Westmont-Upper Yoder dropped from its leading position and was then tied with Ferndale High School in the Conemaugh Valley League. Ferndale would not consent to play less than three games to decide the championship. Westmont-Upper Yoder forfeited, but Ferndale got no further; they lost to Hollidaysburg.

Last year our basketball team lost the league championship because of an illegal player, but they went to St. Francis and showed that they still had a fine basketball team. Last year they were runner-up.

St. Francis Tournament

This year again, the team has entered the St. Francis tournament, and they have shown again that they didn't lose the league championship by poor playing.

This is the fifth annual tournament sponsored by the "F" Club of St. Francis College. Twenty-four teams are entered to compete for the various trophies. Four tournament games are played each evening, but each team may play only one a day.

Team Defeats Dale

In the first game at the St. Francis tournament, Westmont-Upper Yoder varsity basketball team played Dale High School. Our team trailed 7-5 at the first quarter and 20-15 at half time. They rallied in the third quarter to lead 27-25. The final score was 36-31. Hannan led the scoring with eight field goals.

Portage Defeated 19-14

Monday evening, March 23, the basketball team defeated Portage for their second victory in the St. Francis College tournament. This victory brings much satisfaction to Westmont followers when it is recalled that Portage defeated Westmont in the finals of last year's tournament. The going was close with the local cagers holding a slight margin throughout the game. The team was handicapped by having only the partial service of Kunkle due to recent illness. Peel proved his ability to fill in the gap by making several points. The final score stood 19 to 14.

Ebensburg Defeated 37-25

In the semi-finals the entire team came through in fine style to defeat the highly-touted Ebensburg team and winner of the Northern Cambria League. Kaminsky carried off scoring honors by sinking six two-pointers. Ebensburg set the pace the first three quarters, holding a 25-23 lead at the start of the fourth period. In the fourth period the local cagers proceeded to roll up a 12-point lead while holding the county seat quintet scoreless. The final score was 37-25.

Team Defeats Beccaria for Title

Starting off with a whirlwind attack that net-

ted the Red and Gray team a 15-0 first quarter lead, Westmont won their first leg on the St. Francis Varsity "F" Club Trophy. Beccaria put up a game fight throughout, but the result was never in doubt with Westmont holding a 19 to 5 lead at half-time and 26 to 9 at the end of the third quarter. The final score stood at 39-15.

At the close of the game the Rev. Father John P. Sullivan, T. O. R., rector of the college, presented Coach Engh and co-captains Hannan and Kunkle the awards for the winner of the tournament. These included the St. Francis Varsity "F" Club trophy to be held for one year, the William F. Diamond trophy, a permanent award, and gold basketballs to be presented to the individual team members.

Co-captain Jack Hannan received the highest individual honor, the trophy for the most valuable player.

FORENSIC LEAGUE COMPETITION

In the Forensic League elimination contest of class B at Johnstown Central High School, Westmont won three out of a possible five first places. Our choral club defeated the girls' choral club from Ferndale by a wide margin, and our mixed glee club also won from Ferndale. Julia Dunn, the first violinist in our orchestra, won first place in a contest among the leading violin soloists of southern Cambria County. Our orchestra lost a very close decision to the Ferndale orchestra; however, from the number of pleasing comments, we should judge the playing of our orchestra was quite satisfactory to the listeners. Clyde St. Clair, our young trombonist, lost a very close decision in a trombone solo to a player from Johnstown High School.

On Monday, March 28, at Ebensburg, our girls' choral club will meet the winner of a contest between the choral clubs from Ebensburg, Cresson, and Barnesboro High Schools. The winner of this contest will be champion of Cambria County. On the same date the mixed glee club will meet the winner of a contest between the mixed glee clubs of Cresson and Barnesboro High Schools. Likewise the winner of this contest will be declared Cambria County's champion. Julia Dunn, our violin soloist, will play again on March 28 against the competitors in her field from northern Cambria County.

If the entries from Westmont-Upper Yoder High School win at Ebensburg, which we hope they will, they will compete for the sectional championship, and then for the state championship.

"Music, if only listened to, and not scientifically cultivated, gives too much play to the feelings and fancy; the difficulties of the art draw forth the whole energies of the soul."

"Knowledge is boundless—human capacity limited."

MISS GRAY

Three years ago there came to our school a diligent musical worker, Miss Gray. Before her coming, the interest along musical lines was not very keen, but with her untiring efforts it has been raised to a comparatively high standard.

The first year she was here, she held what was called an Opportunity Contest, for the purpose of locating the talent of the community. It was open to the public and apparently was such a success that a similar program has been featured each year since her arrival.

In 1928 our musical organization, under the direction of Miss Gray, entered the Forensic League Contest. The mixed glee club and the orchestra came out with flying colors.

Last year the orchestra was victorious, but due to a delay in the sending of the music, our choral club was forced to withdraw.

Last Saturday, March 14, was the opening day for this year's contest. In addition to the choral club and orchestra, Westmont featured a violin and trombone solo. The violinist, girls' choral club, and mixed glee club were victorious, and on the 28th of this month they compete at Ebensburg with the northern part of the county's contestants.

In addition to the high school musical organizations, Miss Gray, in her first year at Westmont, started a junior orchestra. It is composed of young musicians from both the Stutzman and Tioga Street Schools. Although we have not heard much from them, we are certain that their success will soon be realized.

These accomplishments are the more definite results of her work. Some phases of her work are less noticeable than these, but she labors earnestly in all of them.

We are very grateful to Miss Gray for her conscientious efforts to better the musical standards of our high school. We are confident that the future will bring well-deserved laurels to her.

JUNIOR CLASS PLAY A SUCCESS

Nearly five hundred people witnessed the presentation of the mystery play, "The Perfect Alibi," in the high school auditorium on Friday, March 20. The highly commendable manner in which it was presented was the combination of several weeks' work on the part of the cast and their director, Miss Margaret Greer.

This play, written by A. A. Milne, is also known under the title, "The Fourth Wall." The setting is a room in the home of Arthur Ludgrove, a prominent Englishman. The scene opens at three o'clock in the afternoon. The first scene introduces the several characters and plans for their whereabouts during the next few hours.

The excitement begins to rise in the second scene, when Carter leads Ludgrove to suspect that Laverick is one of the two men whom Ludgrove had twenty-five years before sent to prison. They plan to trap him if he proves a false friend. The plan works, but when Ludgrove telephones the police, Carter, who proves to be the other of the two men, shoots Ludgrove.

In the second act, the murderers give a perfect alibi, and the sergeant decides that Ludgrove committed suicide.

At midnight Susan and Jimmy meet in the same room and figure out that Ludgrove was murdered, and that the act was committed by Carter and Laverick. They find the one mistake in a nearly perfect alibi. (Act III, scene I.)

The last scene takes place the next morning, when all guests are leaving. Susan traps Carter in the room and proceeds to break the news that she has evidence against Laverick and him. She completely un-nerves him by saying loudly that the sergeant was to wait a few moments. She hands to him the papers he demanded. When she again attempts to terrify Carter by saying that the sergeant should wait, Carter laughs, but Jane enters quietly and hides in the room. Carter is again startled when Jane appears a few moments later to aid Susan. He becomes furious when he discovers that Susan had unloaded his gun, and thereby had out-smarted him again. He is arrested as he leaves the room. The play ends with Jimmy frantically calling for help.

Throughout the play the excitement is tempered with humor, and the action in the last scene has many very unique points. That the play was much enjoyed by everyone is inevitable.

Richard Stewart played the part of Jimmy Ludgrove and Mary Kathryn Chaplin that of Susan Cunningham. Jack Zimmerman was Edward Carter and James Gurley was Edward Laverick. Ronald Peel was Arthur Ludgrove. Walter Byers was Sergeant Mallet and Edward Hoffman was P. C. Mallet. Anna Stenger was Jane West and Gladys Momberger was Mrs. Fulverton Fane. George Tarr was Adams. William Kintner was Major Fothergill. Vera Potter was a maid. The cast deserves much praise for their excellent presentation of the play.

SENIOR ACTIVITIES

The Senior class has been very busy lately making preparations for the annual Washington trip. Under the competent management of the class officers the class has advanced steadily. Edwin Hartz, our president, has proved to be competent in his position, and our vice-president, Sara E. Dodson, also deserves praise for her work. Louise Geist, secretary, and George Whitten, treasurer, have also filled their offices in the best manner possible and deserve much praise.

Every student, during his four years of school looks forward to the time when the class visits Washington. The time is drawing near and the Seniors are busy making preparation. Candy is being sold daily and dances have been held after games. The trip is to be made on May 12 in order that the annual Senior play may be held previous to that date. Mr. Sharp and Mrs. Robinson will be chaperons and a delightful trip is expected.

Another important activity is debating. Every year the Seniors enter into debates and the best speakers are chosen to represent our school in the Forensic League. Both the negative and affirmative teams have been very successful this year. Eleanor Feinberg, Frank Bracken, and Naomi Berney, alternate, comprise the affirmative team, and Sara E. Dodson, Louise Geist, and Jack Zubrod, alternate, comprise the negative team. We congratulate them because of their good work.

HOME ECONOMICS VALENTINE LUNCHEON

The Home Economics class, consisting of twenty-five girls, gave a valentine luncheon on February thirteenth. The big problem which confronted the class was whom to choose as the honored guest. We finally decided on asking Mr. Sharp, as we felt that we really owed it to him.

Mr. Sharp was promptly asked to the luncheon and the girls hurried very much to get things arranged in the proper order. The ice cream was frozen and being packed; the salad was made and arranged at the table; the cocoa was poured and ready to serve; the beans were prepared, and everything was at hand.

When Mr. Sharp arrived, everyone was ready to greet him. The luncheon began with the opening of the valentines. Everybody was very quiet. This urged Mr. Sharp to make the following statement: "This is the first time in a long while that I've seen ten girls so quiet."

The conversation was then continued more rapidly on school subjects, with a few jokes here and there. The luncheon was over at twenty minutes of one. Our guest, thanking us for the luncheon, departed. The dishes were soon washed and everything cleared away. The pupils returned to their classes at one o'clock ready for work.

Mr. McIlnay: Waiter, a beefsteak, but not a small one; I am so terribly nervous that every little thing upsets me.

Biology Student: Oh, mammoth oak, if you could only talk, what would you tell me?

Miss Canan (Nearby): Pardon me, but he would most likely say, "If you please, I'm not an oak, I am a spruce."

Mother: Horrors! While sister was sleeping the baby licked all the paint—

Father: What, off the chair?

Mother: No—off sister!

Song Titles

"You're Driving Me Crazy"—The faculty.

"I'm Hurt"—Students after receiving reports.

"Let Me Call You Sweetheart"—Dick Stewart.

"Betty Co-Ed"—Betty Kyler.

"I'm Alone Because I Love You"—Don Adams.

"Give Me Something to Remember You By"—Eddie Hartz.

"Maybe It's Love"—Elsie and Tags.

"Falling In Love Again"—Ronald Peel.

"Blue Again"—Kunk.

"I'm Nobody's Sweetheart Now"—Chips.

"My Wild Irish Rose"—Rosemary Sharp.

"I'll Always Be In Love with You"—Babe Hannan.

"If I Could Be with You One Hour Tonight"—Helen Neafach.

"If You Should Ever Leave Me"—Lewis Foy.

"The Right Kind of a Man"—Jack Hannan.

"You Brought a New Kind of Love to Me"—Dodson.

"What Is This Thing Called Love?"—E. Barrett.

"Memories"—Louise Kyler.

"Lonely Troubador"—Curt Owen.

"He's My Secret Passion"—Kay Chaplin.

"Lonesome Lover"—Wagner.

"Falling In Love"—Bill Lewis.

"A Cheerful Little Earful"—Vacation.

Dave: Your Scotch boy friend certainly answers letters promptly.

Betty: Yeah, I told him the government might raise the postage to three cents any day now.

Mr. Sharp: Your lunch today was terrible. I found a hair in the ice cream, a hair in the honey, and a hair in the applesauce.

Mrs. Robinson: That's funny. I can understand the hair in the ice cream. It came from shaving the ice. And the hair in the honey probably came from the comb. But what gets me is the hair in the applesauce. I bought those apples myself, and they are supposed to be Baldwins.

A young man with a pretty flirtatious fiancée wrote to a supposed rival: "I've been told that you have kissed my girl. Come to my office at eleven o'clock Saturday. I want to have this matter out."

The rival answered: "I've received a copy of your circular letter and will be present at the meeting."

Mr. Wolf Phones: Operator, give me eleven times thirty-two, minus six, divided by five, add to it twice the original number, and make it snappy.

COMMENT—GENERAL AND SPECIAL

Blame the Reporter

The reporter who wrote about the door behind the tapestry failed to notice that there is no projecting door knob there. The door is set back into the wall about a foot and so one cannot conveniently lean against it, as the reporter thought.

Chem. Class

The long report of the Chemistry class fails to tell us who has broken the most equipment. We know no one has broken a glass retort; they cost only one dollar. According to some students, if Mr. Ott has forgotten what a hard exam is, he could quickly find out by taking any of those he prepares for the chemistry class.
