

RAIN AT JOHNSTOWN.

WORKMEN COMPELLED TO CEASE LABOR OWING TO THE HEAVY DOWNPOUR.

GOOD SERVICE BY STATIONARY ENGINES.

One, Doing in Two Hours the Work It Requires One Hundred Men to Accomplish in Two Days—The Pittsburgh Committee Anxious to Be Relieved of the Task of Clearing the Valley.

JOHNSTOWN, June 10.—Another wet and close morning in this valley. When the day broke the scene was dismal to a depressing degree. A penetrating drizzle came down and made everything wet and slippery. When the whistle of the Cambria shops sounded this morning the whole place was awake, and smoke from many chimneys and burning debris made a heavy cloud that rested over the entire valley, almost hiding it from view from the hills. Soon the valley was alive with thousands of busy workmen, and the tenth day of work on this vast undertaking was begun. There is little change in the general situation to-day and all the various departments are moving along in a manner highly satisfactory. The stopping of work by the Cambria company yesterday gave their men a much needed rest. The same large crew is on duty for their daily ration and the various commissary stations were scenes of great activity.

Great quantities of debris which has been loosened from above the stone bridge and floated down the stream have formed a gorge opposite Cambria City and a number of men were sent there to-day to remove this and to clear the channel, stopping the flow of water and rendering very difficult the work of removing wreckage at the stone bridge.

Another consignment of stationary engines arrived to-day, making ten in all now here. They were placed in various sections of the town, and did most effective work. One was put in position on the stone bridge, and in two hours the work accomplished by it was more effective than the work of 100 men for the last two days, and a channel was opened for a considerable distance from the bridge.

The visit of Governor Beaver yesterday has given renewed hopes to the stricken people and on all sides the action taken by the governor when he arrived impressed everyone favorably and especially the Pittsburgh relief committee, whose representatives went home well pleased to be relieved of the work of removing debris and restoring order, leaving to them the accomplishment of the one great object—the relief of the sufferers.

About nine o'clock the downpour became so heavy that it seriously interfered with work, and the men were called from work to some place of shelter, but as soon as the rain became less heavy, all went to work again. Arrangements have been made for the supply of fresh meat to be furnished. Everyone is actually suffering for this necessity. To-day four cattle will be slaughtered here for the use of Booth & Flynn's men, and hereafter six daily.

Much discussion has been had here as to the personnel of the commission to be appointed by the governor to investigate the cause of the flood. It is generally admitted it would be eminently proper that the commission should be largely composed of Pittsburghers, as that city is so near and has already so satisfactorily managed the entire affairs of this section.

After Wednesday Adjutant General Hastings will have entire charge and this section will be strictly under military discipline. In speaking of the general condition of this place as to order, the assistant chief of police said to-day: "I wish to say that the people of this section are well pleased with the order that has prevailed since the flood. There is no drunkenness, no disorder and no drunkenness that ever before. It is most surprising that there has not been more disorder, and everyone is more grateful to the people in charge for their effective work in this direction."

The First National bank has opened up for business and is appreciated by all here. Much trouble has been caused by the inability to get money here, all having to bring it in in packages. Much suffering has been occasioned by the wearing of gum boots by the men. Over sixty men of Booth & Flynn have been obliged to quit work to-day owing to their feet being terribly blistered and many to start up in all departments about two weeks, but those who ought to know say it will take at least until October before the Gaultier mill will be ready to run.

Sixteen bodies recovered this morning, but five identified. They were the son of C. E. Cresser, undertaker, whose family was lost, and the first body found; Mrs. Kate Nevery and Mary Jane Nevery, both widows and seamstresses, in the Hager block; David Crook, grocer; Blanche Hannah.

The unidentified were seven females and four males. The bodies are very much decomposed. There will not be any further work for the undertakers after this evening.

Rev. Father Trautman, pastor of the Church of Immaculate Conception, reports that out of a congregation of 350 he has lost 113 and thinks the drowned will reach 150.

Dr. Gladden, of Homestead, who is medical director in Minersville, reports this morning the prevalence of measles is becoming fatal and there is no prospect of immediate danger from malaria and that there is only a single case of typhoid pneumonia.

The train from Pittsburgh this morning brought up a large crew, among which were 200 axe men from Michigan, who were put at once to work on the heavy timber at Northville, two miles from headquarters. All correspondents join in to get without compelling us to walk miles to get it.

General Hastings, Chairman Scott, Contra for Flynn, some members of the Pittsburgh relief committee, and being accompanied with the emergency government of the Conemaugh Valley, at which important action was taken. It was decided that the relief committee should assume all liabilities for the removal of the debris from the town sites and the drift at the stone bridge, and the work necessary for putting in better sanitary conditions and preventing the pollution of the water supply of distant cities and towns. It was agreed that the governor should appoint a commission to take general charge of the valley, and that on Wednesday next General Hastings shall assume general direction, not only of the relief committee, but also of the clearing away of the debris and putting the town sites in proper condition for rebuilding. It was also agreed that none of the relief committee should be relieved of their duties until the clearing of the town sites; that a work should be done by the state, and that the contributions of money, food, clothing, and other necessities should be continued to the survivors.

Reuben Miller was sent to Philadelphia Friday night to represent the committee of the relief committee, and was in conference all day with the Philadelphia citizens' committee, representative of the relief committee, and was in conference all day with the Philadelphia citizens' committee, representative of the relief committee, and was in conference all day with the Philadelphia citizens' committee, representative of the relief committee.

In Pittsburgh a telegraph office was rigged up in the basement of the chamber of commerce, a through wire put in and communication had with those of Philadelphia. The telegraph office was in charge of the relief committee, and was in conference all day with the Philadelphia citizens' committee, representative of the relief committee.
