#### THEY MEAN BUSINESS.

Johnstown People Raise \$1,500 to Take the Steps to Bring Suit

AGAINST THE SOUTH FORK CLUB.

The State Force of Employes at Work Has Been Increased.

DID NOT KNOW THAT IT WAS LOADED.

All the News From the Communities That Are Tribu tary to Pittsburg.

A portion of the citizens of Johnstown have raised \$1,500 to use in investigating the chances of a successful suit for damages against the South Fork Club. The State force has been increased.

#### ISPECIAL TELEGRAM TO THE DISPATCH.

JOHNSTOWN, September 6.-The committee which had in hand the collection of money subscribed to push the suit against the South Fork Fishing Club met to-night, when it was found that over \$1,500 had been collected. As only \$1,000 was required, it seemed to show that the people are in earnest in the matter. It was decided to have the investigations by Messrs. Rose and Linton made as soon as possible, and, if there is any encouragement given, to push the suit as rapidly as possible. Considerable money has been given to the committee within the past few days, over \$400 having been handed in to-

few days, over \$400 having been handed in today.

About \$00 men were at work for the State today, and the number will be increased as rapidly as possible until a much larger force is employed. After an absence of a week Secretary
Kremer returned to town again to-day. He
says everything will be in shape to present a
full report of all cases to the commission at its
meeting in Harrisburg on the 18th inst. Mr.
Kremer anticipates that the report of the
Board of Inquiry, however, will be in too crude
a shape for its immediate adoption, and thinks
it will be some time yet before the money will
be distributed.

A committee of 15 leading citizens were this
afternoon appointed by the Board of Trade to
urge the rebuilding of the bridges, and to take
measures looking toward the cleaning out of
the rivers. The gentlemen appointed on this
committee will urge immediate action of the
berough authorities in building bridges. The
Western Union Telegraph Company's office has
again been moved back to the room where it
was when first located uptewn after the flood.

#### A MIASMATIC DAM.

Allentown Citizens Object to the Refilling of the Old Water Works Pond.

ALLENTOWN, September 6.-The heavy rains of several weeks ago washed away a portion of the old water works dam and the question whether it shall be rebuilt or not is agitating the public mind at present. Three years age Allentown was visited by an epidemic of typhoid

Allentown was visited by an epidemic of typhoid fever and malaria.

At that time the leading physicians of the city presented a memorial to the City Councils setting forth that they were uranimously of the opinion that the vegetable growth in the dam [exposed to the rays of the sun produced the miasma which was carried by the south winds which prevailed at that time for many consecutive days over the northern and western portions of the city and left sickness and death in its track, and in which they recommended the tearing away of the dam and allowing the river to return to its original channel and the thorough turn to its original channel and the thorough disinfection and filling up of the marshy surface, removing all danger of a recurrence of

the epidemic.

Prof. Leffmann, of Philadelphia, was called in as an expert and pronounced the swamp liable to be a source of malaria and recommended that the dam should be torn down. Here matters rested, however, and the health of the community was jeopardized until the late flood. The question has again been revived, and the feeling against rebuilding the dam runs high, as the city has no further use for it and its entire removal is regarded as essential to the health of the city.

Her grandfather was General Philip DeHass, of Revolutionary fame, his son John being also an ensign at the same time. A sister of John DeHass married Benedict Arnold.

#### Death on the Rail.

[SPECIAL TELEGRAM TO THE DISPATCH.] LIMA, September 6.-Ex-City Marshal Jack Kaley, of St. Mary's, drove his horse and buggy on the track in front of a Lake Erie and Western passenger train near the depot. The engine struck the rig, killing the horse and fracturing Kaley's skull, injuring him internally so that he cannot live over night.

proving the plans for the proposed new steel bridge across the river at this point, had been approved by the Secretary of War.

#### A BIG MELT OF STEEL,

Oliver Brothers & Phillips Broke the Record Last Week.

Oliver Bros. & Phillips have made an extraordinary run of steel in their converting mill at the foot of South Thirteenth street. One day last week they melted 148,800 pounds of scrap steel in one cupola in 24 hours. This is claimed to be the best record ever known. The average run in one cupola is about 82,000 pounds. In the same time 414,000 pounds of iron was melted. The melt reflects great credit on the Superintend-ent of the mill, George W. Bryan, who is an old Edgar Thomson man. The mill is now running triple turn.
