PRESIDENT HARRISON SENDS AID.

He Also Sends Sympathy to the Sufferers—Scene of Sorrow—The Floating Dead—Stories of Disaster Still Come.

PHILADELPHIA, Pa., June 1.—It is now thought that the loss in the vicinity of Johnstown will be about eleven million dollars. C. W. Hoppenstedt, of Lincoln, Pa., at the east end of Pittsburgh, distributed himself by his heavy yesterday afternoon. He was the messenger on the Mill train which had to turn back at Saug Hollow. As the train passed the point where the water was full of straggling people, a woman and a child floated by near the train. The train was stopped and Hoppenstedt jumped into the water and in two trips saved both the mother and child.

The river is very high and rising. Water has reached Eighth street and has put out the fires in the engine house at the Washington monument and stopped the elevators. Cellars on the south side of Pennsylvania avenue are being carried under water. The water is still rising. Last night the rain fell almost equal to a cloud burst. The lock gate of the Chesapeake and Ohio canal was carried away by the water. The canal is now several canal boats into Rock creek, where they were destroyed. Since then the river has been rising rapidly, and the flood of water from Harper's Ferry is carrying upper tributaries is swelling it every moment.

NEW YORK, June 1.—So much has Sullivan changed and improved in training that a friend who knew him well failed to recognize him last night at the depot at Hoboken when Sullivan and Cleary took the steamer for Boston.
