REFEREE SIGNALS

ICING

Arms folded across chest.

INTERFERENCE

Crossed arms stationary in front of chest.

SLOW WHISTLE

Either arm, in which whistle is held, extended above head. If play returns to Neutral Zone without stoppage, arm is drawn down the instant puck crosses the line.

ELBOWING

Tapping either elbow with the opposite hand.

CHARGING

Rotating clenched fist around one another in front of body.

CROSS-CHECKING

A series of forward and backward motions with both fists clenched extending from chest.

MISCONDUCT

Placing both hands on hips several times and pointing to penalized player.

SLASHING

A series of chopping motions with the edge of one hand across the opposite forearm.

TRIPPING

Extending right leg forward, clear of the ice, and striking it with right hand below the knee.

HOLDING

Clasping either wrist with the other hand well in front of chest.

HIGH-STICKING

Holding both fists, clenched, one immediately above the other, at the height of the forehead.

HOOKING

A series of tugging motions with both arms, as if pulling something toward the stomach.

DELAYED CALLING OF PENALTY

Referee repeatedly points, with free hand (without whistle) to player to be penalized until play is stopped.

WASHOUT

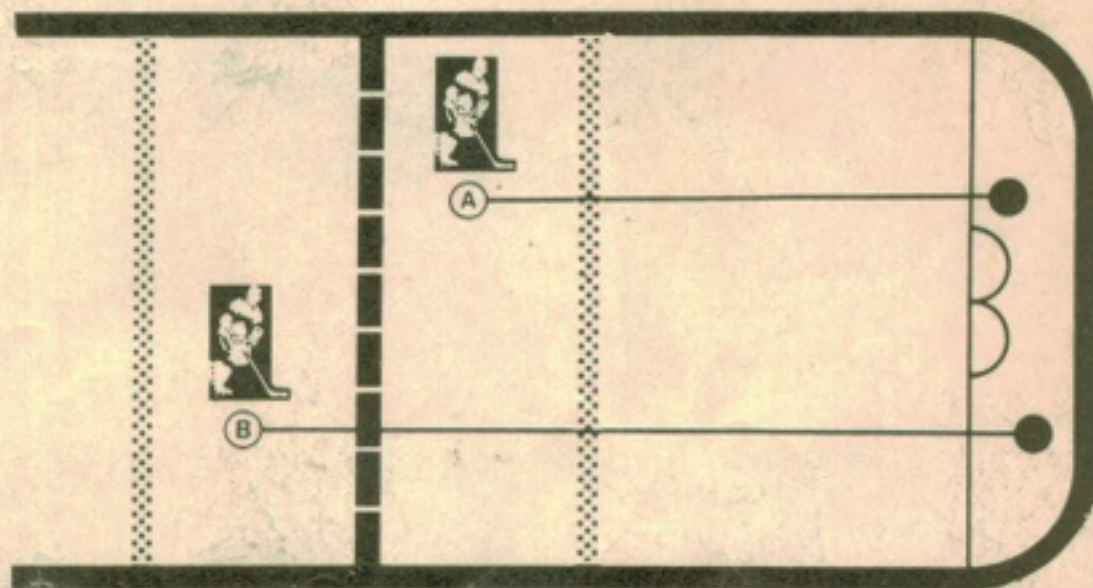

Both arms swung laterally across the body with palms down.

1. When used by the Referee it means goal disallowed.
2. When used by Linesmen it means there is no icing or no off-side.

ICING AND OFFSIDE

ICING

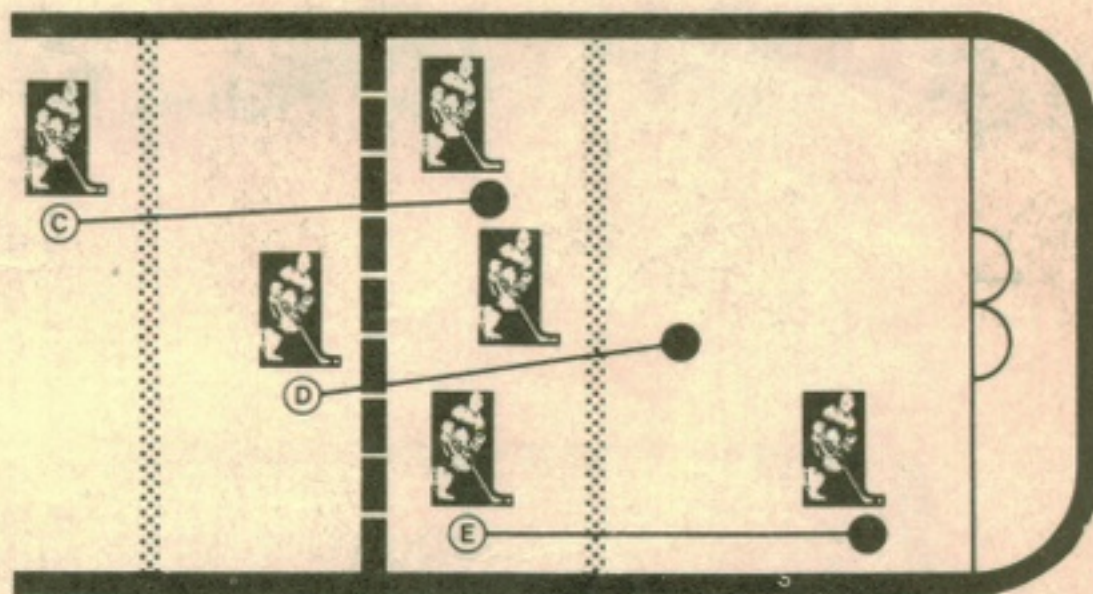

- A Icing does not occur when a player shoots the puck from the offensive zone of the center ice into the opposition's end of the rink.
- B Icing is called when a player shoots the puck from his own — or defensive — zone across the opponent's goal line (but not through the goal crease). Icing is not called when a team is short-handed; when a player could have touched puck before it went across goal line; when a player from icing teams touches puck first.

ICING

OFFSIDE PASS

- C An offside pass occurs when a member of the attacking team passes the puck from behind his own blue line to a teammate across the center red line.
- D An attacking player may pass the puck over the center red line and the blue line to a teammate, as long as the teammate does not cross the blue line before the puck.

OFFSIDE PASS

E OFFSIDE

A team is offside when a player crosses the blue line before the puck. The determining factor in an offside is the position of the skates; they must both be over the line ahead of the puck to be considered offside.

Watch Out for Flying Pucks

A flying puck can do a great deal of damage, so it is important that hockey fans be alert. Building and hockey club management is not responsible for spectator injuries.

The holder assumes all risk and danger incidental to the game of hockey, including specifically (but not exclusively) the danger of being injured by a puck or hockey stick, and agrees that the arena, the league, its officers and employees, the participating clubs, their agents and players are not liable for injuries resulting from such cases.
